

484 Nordex 2D

Refined due to its technology and prestige, it is characterized by reliability and the ease with which it is possible to adjust the leaf of a flush door or window. Height and depth adjustments of doors and windows can be made perfectly over time. It is equipped with a system against breaking and unthreading and therefore represents an efficient antitheft device. It has a **high carrying capacity**, guaranteed by 5 fixing points for each plate: by 3 screws and 2 pivots. Available in diameter: 16 millimeters.

AUTHENTIC LUXURY

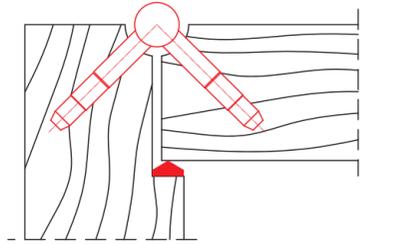

Adjustable Systems for Flush Doors

495 Exacta 3D

The **success** of Exacta® three-dimensional adjustable hinges is due to their **beautiful appearance** and the **technical excellence of this range**. They are easily installed and always permit **adjustment of the mounted window or door in all directions**. **The need for only one person to mount and adjust them is a great advantage**. Available in the following diameters: 13, 14, 16 and 20 millimeters; the 16 and 20 millimeter diameters are also available in **stainless steel**.

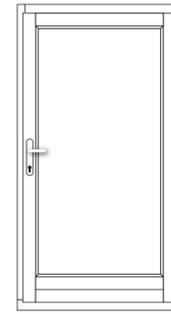

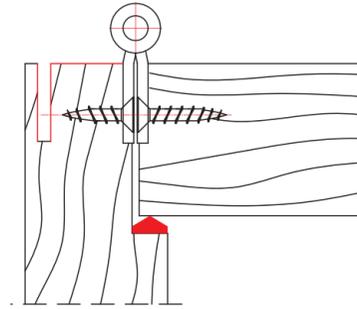

Solid brass caps

485 Pomellas 1D

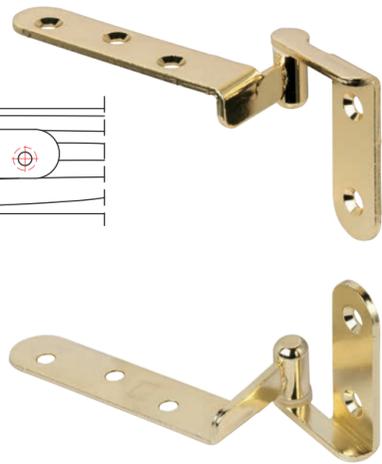

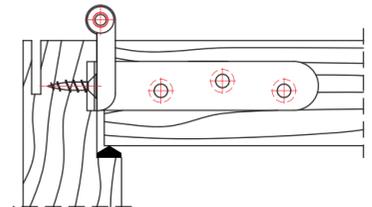

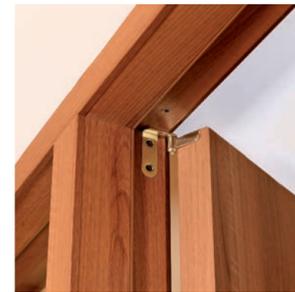

Elegant thanks to its superior finish, it has been specifically designed for flush doors and windows. It guarantees carrying capacity and reliability via the fixing points on the lateral plates. Height is adjustable through an anti-theft grub screw placed towards the inside of the frame. Available in diameter: 14 millimeters.

Similaro finishing

S08

Dedicated to more refined doors, it **enhances** the design of your door with absolutely no impact on it. It has been developed to be discrete and **sets off the quality** of the most prestigious doors.
